Healing Meditation Affirmations for Attracting Money

Money flows with greater ease when we are in alignment with what comes easy to us. But we are not raised to do what comes easy to us, are we? Easy is what we are naturally gifted at, it's often a hobby or a skill that we take for granted. When we allow ourselves to make money doing what we love, money flows, yes you still work, but earning money is not physically exhausting, often you have more energy...There is a big difference.
